Beth Johnson  
Bekel Home + Design

In a world obsessed with what is new and what is next, Bekel Home + Design's Co-owner and Designer, Beth Johnson, has a simple piece of advice—stay classic and neutral. "Trends come and go so try to do something timeless," she says. A gray and white color palette seen throughout the Carrara marble and mosaic accent wall make a bold statement. Plus, the hues keep this 250-square-foot spa in style. The Milton couple wanted to think of the future, not only when it came to design, but also function. "We aren't getting younger," said homeowners Mike and Carolyn McAlpin, when commenting on why they went with a stylish curbless shower entry.
